SERVICE

We are committed to ensuring quality performance throughout the life of every instrument. AB+ Surgicals commitment to quality does not end after an instrument is purchased. With instrument repair and refurbishment services, you can be sure that every instrument functions properly and is available when you need it.

The highest performance is maintained through regular service and repair, keeping surgeons satisfied and improving patient care.

Skilled craftsman and trained instrument makers will refurbish your surgical instruments to "like new" condition, quickly and conveniently. AB+ Surgical uses the same precision equipment in it's repair facility that is used to manufacture these instruments in Mumbai, india.

Factory spare parts give AB+ Surgical the ability to repair your instrumentation with quality materials that match the original. This protects your instrument from contamination and corrosion, further reducing repair, replacement cost and down time.
